WORK EXPERIENCES

FULL STACK DEVELOPER April 2023 - Present
Bluedot - California (Remote)

- Bluedot makes [Electric vehicle charging](#) payment easier and simplifies expense management for drivers and fleets.
- I am responsible for fleet management development within the electric vehicle industry, utilizing AWS Cloud, Stripe, React, Next.js, TypeScript, and the latest technologies to drive the product forward.

MOBILE DEVELOPER Mar 2022 - Jan 2023
Nooli - Queensland, Australia (Remote)

- Nooli is a collaboration & communication platform that helps busy families manage the volume of information that flows into your households on a daily basis.
- I was in the same team with incredibly experienced lead engineering managers, benefited from their experience and took part in the development of Nooli.

[Recommendation from Dean Robertson](#)
Ex Deloitte Australia Partner, QUT EMBA '24 Associate.

BLOCKCHAIN DEVELOPER

Devpost

- We won the competition among 3916 participants in the Near Protocol Meta BUILD Hackathon.
<https://metabuild.devpost.com/>

INTREPRENEURIAL INITIATIVES

Metaliga

- It is an initiative where we show our front-end skills. I suggest you to visit: [Metaliga](#).

Debatepeer

- Debatepeer is an SEO-focused web application where products and team ideas are compared using artificial intelligence.
Please visit to explore : [Debatepeer](#).

FREELANCER 2019 - Present
Adnama Group, Status 200, [Imagine Digital Signage](#)

- I have had the opportunity to contribute to the development of various products for different companies over the years. I've achieved Top Rated Plus status on [Upwork](#), with all my clients to date expressing their satisfaction through 5-star reviews.
